
A macro for Ecliptic Charts to calculate all aspects. The planet is mandatory. Chromatic degrees of the planets and signs are required. The house system to use is optional. "NORMAL" is the default house system used to generate a chart. The name for the macro can be set to any name you choose. ... SMOGFILL is a computer program for mapping the coordinates of the Moon, the Sun, and the planets, as well as the fixed stars, constellation boundaries, and paths on the horizon. The program allows you to create accurate charts for any time, and displays the coordinates of celestial bodies, time and date, and the current Moon phase and position. The program also offers a large variety of functions to work with chart coordinates and the coordinates of celestial bodies, like the Moon, the Sun and the planets, including a 100+ object database of the Planets and the Stars. You can use one or more objects and input their coordinates. Objects can be colored, rotated, scaled, moved and moved around. The program supports a large number of houses, the Chiron's, the degrees, the Moons in Leo, Sagittarius, Cancer, Aries and Pisces, and others. All features can be used in combinations. You can use an object for one task, another for another. ... Daily Horoscope report from your birth date, planet location, sign, week number, day of the week and detailed analysis of a current Sun position. You can get your horoscope daily, weekly, monthly and yearly. Crocodoc StarChart is a free, comprehensive astrology software. Through its interface, you can get multiple charts at once, search for an astrologer to study the aspects for any date of interest and make detailed analysis of any chart. The application enables you to create full research papers, including personal and medical astrology. Crocodoc StarChart is a Web software, so you can study the horoscope for any day, place or time zone. IS'Cross is a cross-platform, astrological software that supports the following chart types: Main Chart, Eclipse Chart, and Pluto, Uranus, and Neptune House Charts. The program features a graph-based interface with multiple features including: Basic Functions, Tools, Data Loading, Eclipse Data, and Universal Speed Chart. IS'Cross is released under the GNU GPL v3 and is available for the Windows, 70238732e0
